**Subject:** Public Comments about OSA

As a 2020 census partner and Austin Asian Complete Count Committee leader, I am delighted to hear that the Bureau is setting up OSA to serve the community. TX community did not receive any financial support from the federal or State government for the 2020 census outreach; without private funding and support, our AAPI's population could not count correctly. I hope Bureau will continue investing and partnering with the community of color to ensure the data and survey reflect our population growth. Thanks!
